CONTENTS **5L**

**DIRECTIONS FOR USE**

CROP	ACTION	RATE	CRITICAL COMMENTS
Apples and Pears	Assist prevention of pre-harvest fruit drop	1L/2000 L of water (10 ppm) 500 mL/2000 L of water (5 ppm)	Apply as a high-volume spray 12 to 14 days before harvest to thoroughly wet fruit and foliage. A second, half-strength spray (5 ppm) may be necessary if conditions favour excessive fruit drop.
Apples	Fruit thinning	250 to 1000 mL per 2000 L of water (2:5-10 ppm)	Apply as a high-volume spray 10 to 14 days after full bloom to the top two-thirds of the tree for uniform thinning. For specific varieties, consult local Dept. of Agriculture. In Tasmania, apply, particularly to Golden Delicious, from balloon blossom to 7 days after full bloom.
Hard or Softwood cuttings	Root striking	12.5 mL to 50 mL per 10 L of water.	Dip base of cutting to depth of 5 mm into NAA solution for approximately 5 seconds. Allow to dry and insert half the length of the cutting into striking medium. Use the stronger solution for hardwood cuttings, weaker solution for softwood cuttings.

**NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**

**WITHHOLDING PERIOD – DO NOT APPLY LATER THAN 1 DAY BEFORE HARVEST.**

**GENERAL INSTRUCTIONS**

When spraying for the prevention of pre-harvest fruit drop, do not allow fruit to remain on trees beyond normal harvest date otherwise fruit may become over mature. Use a suitable wetter such as Polysorbate 20 at 125 mL/100 L of spray volume. NAA must be absorbed into the tree to be effective. Therefore, slow drying conditions after spraying, high volume spraying and the use of wetting agent (such as Pomade™) will enhance effectiveness.

**PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT**

DO NOT contaminate streams, rivers or watercourses with the chemical or used containers.

**STORAGE AND DISPOSAL**

Keep out of Reach of Children.

Store in the closed, original container in a cool well-ventilated area. Do not store for prolonged periods in direct sunlight.

Triple-rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site.

If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.

**SAFETY DIRECTIONS**

Avoid contact with eyes and skin. If product on skin, immediately wash area with soap and water. After use and before eating, drinking and smoking, wash hands, arms and face thoroughly with soap and water. When preparing spray wear face shield or goggles. Wash hands after use.

**First Aid**

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26; New Zealand 0800 764 766. If skin contact occurs, remove contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

**Safety Data Sheet**

For additional information, refer to SDS which is available from the supplier.

**Conditions of sale:** This high-quality product is suitable for the purpose advised on the label but as Grochem cannot exercise control over mixing or applications, all conditions, and warranties, as to its use for any purpose, are excluded and no responsibility will be accepted by Grochem for any Damage or injury whatsoever arising from its storage or application.
